# The New China.

There can be no doubt that a giant is arising among the nations in the far East, and it will not be long now before carth is a splendid workshop for our says Rev. Newell Dwight Hillis. Mr. China, that nation with the most wonderful potentialities in the world, will have ing and we all have work to do; and— the ancient, and so forth, game of ful potentialities in the world, will have to be accorded a place in the councils of the nations. The advancement of China in the last ten years has been little short.

The distribution of the winter bears that God is good. Nature has put "craps," then, forth her best for our delight; the dull and silent labor of the winter bears about convinced. in the last ten years has been little short of marvelous. Awakened by the Russo-Japanese war and its results to the value example of the spring we dare not turn tions in 1915, anyhow. of the force within herself, she has made in vain. gigantic strides toward progress.

sapped the life and morals of the nation. checked, and the result is seen in a sturdy awakening to the benefits to be derived! from Western civilization. Within the past decade, China has planned and begun a network of railways, and before the advance of the steel rails superstition and ignorance are doomed. She has remodeled her army, so that recent observers who have seen the Chinese soldiers in modern uniform and with up-to-date equipment, schooled and drilled after the Prussian system-that system that made The President's Traveling Expenses. Dr. William B. Sharp, of Philadelphia, who was seen at the Arlington, in speaking of college commencements, said that 'our word 'commencement,' which designates the last instead of the first day of the college year, is derived from the ricumstance that graduates of Oxford University, England, were authorized to sions when they received their degrees on commemoration day. That was the 'commencement' of the professional careers of doctors, lawyers, clergymen, and other graduates, and thus what sounds like an Irish bull is really a recognition of one of the oldest customs of university

ing among humorists by the fact that the student at Oxford before it was applied

> "There is in Washington now, so far as I can find out, only one mustache of a kind that was some years ago very popular in political circles. The mustache proper came to an end not far from the corners of the mouth. But down over the lower jaw on each side there grew a kidney shaped spot of hair which was purely the result of not shaving. These excrescences had nothing to do with the mustache, but the style was popular for some years. It always looks best when the mustache has been dyed

"A remarkable feature about presidential elections in France is the fact that negroes in the interior of Africa, who united action, following their delivery victory mas complete.

It was one of the most powerful speeches in the Virginia convention in March, 1775.

His next important case was his employment to argue a contested election in," said Jules H. Thomson, of Paris and "Robber baron nothing! He kept a made by any orator in the history of our espectable garage."

It was one of the most powerful speeches powerful speeches a committee of the House of New York, at the Shoreham, yesterday country, and his undying words were Burgesses. He acquitted himself with "For France, unlike either England or afterward placed upon flags and adopted as a motto under many circumstances.

To-day is the birthday of Patrick dignified body and took a leading part to her various colonists. Thus, Algeria Henry, who was the son of a Virginia planter, and was born in Hanover County the colonies were at issue with the are told, was commonplace. Nothing about it foreshadowed Patrick Henry the man. In early youth he is generally a planter, a yeoman not in touch with dusky inhabitants of native villages, credited with having been indolent and the aristocratic men about him.
